Capsule Is Sought for AF Academy

Colorado's congressional delegation is attempting to obtain Astronaut Gordon Cooper's Faith-7 space capsule for permanent display at the Air Force Academy here.

A petition signed by Colorado's representatives in the House and Senate was sent to James E. Webb, administrator of the National Aeronautics and Space Administration Monday.

Meanwhile, a similar petition was submitted by the Oklahoma delegation who want to enshrine

Firm Is Fined \$35,000 for Price Fixing

HARTFORD, Conn. (UPI)—The Anaconda-American Brass Co., described as the indispensable link in a vast price-fixing conspiracy, has been fined \$35,000 in U.S. District Court.

"We don't think any price-fixing conspiracy would have been successful without the participation of this company," said Donald Ferguson of the Justice Department's anti-trust division.

Ferguson said Anaconda-American did more business in brass and copper tubing than any of the other 10 companies accused of participating in the conspiracy.

Anaconda-American is the ninth company to be convicted. Two other Waterbury firms—Chase Copper—Brass Co. and Scovill Manufacturing Co.—have so far stuck by their original pleas of innocent.

The other firms, including Anaconda-American, pleaded no contest.

Also fined Monday was Justice Lockwood, vice president of Anaconda-American. His fine was \$5,000.

The total amount of fines levied on the companies and several of their top officers is now \$198,000.

The price-fixing conspiracy was uncovered by a lengthy investigation touched off by receipt of identical bids from several companies by the Tennessee Valley Authority.

Eight other companies fined last March for conspiracy to fix prices were Phelps Dodge Copper Products, Revere Copper and Brass, Inc. and Cerro Corp., all of New York City; Bridgeport Brass Co. of Bridgeport, Conn.; Calumet & Hecla, Inc. of Chicago; Mueller Brass Co. of Port Huron, Mich.; Triangle Conduit and Cable Co. Inc., New Brunswick, N.J.; and Progress Manufacturing Co., Philadelphia.

Zoo Man Is Mauled To Death by Lion

Bay of Pigs Red Cross Man to Visit AFA

A Red Cross executive who played an important role in the release of the Cuban Bay of Pigs prisoners will visit the Air Force Academy Thursday.

Ramone S. Eaton, Red Cross vice president in charge of international relations, will meet with academy ARC field director Mrs. Helen Miller.

At the end of 1962, Eaton directed public information and public relations activities for Red Cross participation in the supply operation which resulted in the release of the Bay of Pigs prisoners.

He visited Cuba and met with Red Cross officials and others to plan the release and exchange of prisoners.

Eaton is vice chairman of the Disaster Advisory Committee of the League of Red Cross Societies. He meets regularly with the Executive Committee and the Board of Governors of the League in international conferences.

The vice president began his association with the Red Cross when he volunteered for rescue work at a special missionary rally at 7:30 p.m. Wednesday, May 29, at the Auditorium, Weber and Kiowa Streets.

The rally is being sponsored by World Harvest, Inc., mission organization headquartered in South Bend, Ind., and founded by the Rev. Lester Sumrall.

No admission charge will be made to the rally, open to the public.

For 40 years, since he was only seven years of age, Arlindo de Oliveira as a leading "witch doctor" of the Macumba sect in Rio de Janeiro, Brazil, according to his story. Before his birth, his mother dedicated her unborn child to the service of the devil in the weird Macumba rites which are known and feared by millions in the South American

6:30 p.m. will precede a 7:30 dinner.

This man delved deeply into the mysteries of witchcraft. Also present will be Eddie Crowder, the new CU football coach, who will review the spring practice game and prospects for the coming season.

He was capable of strange and blood-curdling miracles, such as Professor Tim Kelly will give some pointers on "Fishing in Colorado."

Harry Bashore, who is presenting the certificate to Waiseth,

remarked, "Sox is very deserving and he is the first member of the athletic department to be honored by our club. His teams have always been well coached and talked with him."

In repeated conversations with Christ, Arlindo says he was shown the sinfulness of his life, and was brought out of his witchcraft and into an experience of Christian understanding and belief.

Reservations for the meeting can still be made by phoning Bruce Fullerton at 634-5537. Tickets cost \$3. Friends of the University and parents of students are welcome.

Since 1948 more than 300 firms have settled in Phoenix.

Swift-Moving Pops Concert Sat at Wasson

Wasson High School will stage a swift-moving pops concert — no curtains pulled, no intermission scheduled — in its auditorium at 8 p.m. Thursday.

Featured are the Thunderbird band and the youth symphony seated together on the high Watson stage. Their finale will be Rodgers' and Hammerstein's "Sound of Music."

Student Body President Richard Mendrop will be the master of ceremonies.

Dr. Robert Lombardo, composer in residence, will conduct the orchestra in "Three Miniatures" which he has written for the occasion.

Tickets are available at the Wasson business office or box office.

Adults pay 75 cents, students 60 cents. No reserved seats will be sold. The following program will be presented:

Grand March from "Aida" — Verdi

Ebb Tide — Maxwell

West Side Story — Bernstein

Brigadoon — Lerner-Lowe

Martin Malin, soloist — Clapp

Minstrel Song — Wasson's Trombone Quartet

Donkey Serenade — Fruhl

Three Miniatures for Orchestra — Lombardo

Conducted by the composer — Porter

Night and Day — Robert Satchell, soloist

Blue Bells of Scotland — Pryor

Jon Thomas, soloist — Juarez

Price of Silver Boost Seen as 'Shot in Arm'

By DON MCKEE
BIRMINGHAM, Ala. (AP)—An increase in the price of silver has been "a shot in the arm" for mining in Colorado, where huge fortunes once were dug from the mountainsides.

But in saying this today, a mining official hastened to add that this state is far from embarking on a silver boom.

"The increased price of silver is still not commensurate with the increase in the price of production," Robert S. Palmer, executive secretary of the Colorado Metal Mining Fund, said in an interview.

"There is a lot of renewed interest and a great many inquiries from people about getting titles cleared up for mining properties and paying back taxes."

The price of silver has risen to as high as \$1.28 per ounce recently compared to 50 cents last year.

Palmer said he knows of at least two new properties opening up in Colorado, one near Breckenridge in Summit County and the other near Silverton in San Juan County.

These are both mines that have been worked in the past. "There is nothing new in Colorado, that I know of," Palmer said.

Colorado's last smelter was discontinued two years ago, which means ore concentrates must be shipped to Salt Lake City or El Paso, Tex.

"If we had modern facilities for processing and marketing," Palmer said, "we would have more production. In addition, we have complex refractory ores in Colorado with usually five minerals found in the ore — gold, silver, lead, zinc and copper."

Last year Colorado produced 2,029,000 ounces of silver valued at \$2,160,000 as against 1,965,000 ounces worth \$1,817,000 in 1961.

A close-to-home tour for
DENVER AND COLORADO SPRINGS

Take pictures in the wooded glens on your way to the Rockies

Up from the Foothills to the World's Highest Yacht Anchorage

On this 213-mile round trip you and your family will drive about as high as you can go by car anywhere in the world... you'll enjoy the "Great Lakes of the Rockies" ...and see many reminders of booming mining days.

(CLIP AND SAVE THIS TOUR)

43m. ST. VRAIN CANYON. Turn northwest, passing the red-stone quarries of Lyons, Steamboat Mountain and Little Elk Park, with the mighty peaks of the Front Range straight ahead.

63m. ESTES PARK. This is the eastern gateway to the Rocky Mountain National Park, a popular year-round resort surrounded by towering peaks. Take U.S. 34 and enter...

ROCKY MOUNTAIN NATIONAL PARK. Now you begin one of the most wonderful motoring experiences in America. TRAIL RIDGE ROAD climbs 4,700 feet on its winding course, then descends 4,000 feet to GRAND LAKE, at the western entrance. Dress warmly; while the air is light and dry, you are entering a cold-climate zone.

As you drive over the highroad, with time out for hiking and sightseeing, you can share with your youngsters the pleasure of learning about wildlife, wildflowers, glaciers and the ways of nature. Your car will become the means of reaching the great classroom of the outdoors. Then across the park, you'll reach the highest yacht anchorage in the world, with plenty of opportunity for boating if that's your interest.

Take your time while you drive. The highroads are engineered for safety, but leisurely travel gets the most out of the sights en route. Start early if you're on a one-day trip. If you're on a weekend, there are plenty of accommodations, from campgrounds to resorts.

Start at the junction of West Colfax Avenue and Federal Boulevard in...

9m. DENVER. Drive north on Federal Boulevard (Route 1) to Westminster, then turn left on the Denver-Boulder Turnpike to...

27m. BOULDER, at the foot of the great Flatirons, rising above the city and the UNIVERSITY OF COLORADO campus. Turn north on Route 7 to Junction with Route 66.

85m. FALLRIVER PASS. Don't rush your descent. You can stop for lunch at the Visitor Center here and take in the excellent displays in the Alpine Exhibit Room, part of the National Park Service that interprets features of the Park in a way visitors of all ages will enjoy. As you cross

the Continental Divide at MILNER PASS (elevation 10,759 feet), park your car and walk the forest trail from Poudre Lake, where the flow of eastern and western waters divide. Then descend past TIMBER CREEK CAMPGROUND, through fertile meadows, pine and aspen forests, following the COLORADO RIVER.

111m. GRAND LAKE, the western entrance to the National Park. Grand Lake village, on the northern shore of the lake, is a resort town in a beautiful mountain setting, surrounded by the peaks of the National Park. You may want to join one of the free lectures or field trips sponsored by the Park Service during the summer. Grand Lake itself is a major center for outdoor sports, noted for its fine trout fishing, boating, water skiing. It is the largest natural body of water in Colorado and the highest yacht anchorage in the world, the site of the annual regatta for the Sir Thomas Lipton trophy. Continue south on U.S. 34 to...

118m. LAKE GRANBY, together with nearby SHADOW MOUNTAIN LAKE, were formed by the Colorado-Big Thompson Project to divert water under the Continental Divide from the western to eastern slope for electric power and irrigation. Guided tours through the Granby Pumping Plant describe the entire project and the operation of the 13-mile-long Alva B. Adams tunnel. Both lakes offer excellent fishing. You may rent a rowboat at any of many privately owned docks along the shorelines. Sight-seeing cruises begin from several docks. There are also campgrounds and picnic tables within the 20-square-mile Shadow Mountain National Recreation Area at junction with U.S. 40. Turn left to the town of GRANBY, then through ranching and logging country. The road follows the Fraser River past the Winter Park Ski Area, winding up and over the Continental Divide at 11,314-foot-high BERTHOUD

PASS, then down the eastern slope along Clear Creek, bordered by dark green forests.

180m. IDAHO SPRINGS, where gold dust was first panned in 1859. Even today some mines in the vicinity will yield uranium, tungsten, molybdenum, gold and lead. There are many reminders of the past, including Locomotive No. 60, followed by tender and day coach, now standing in peaceful retirement beside the old depot. They made their first narrow-gauge run in 1868. You may want to show your youngsters a real mining classroom, the EDGAR MINE, on U.S. 6 and 40, used by the Colorado School of Mines.

Continue east through the Rocky Mountain foothills through the Denver mountain park system, heading toward the valley of the South Platte River, with the towering snowy peaks you've explored still visible in the north. Just follow U.S. 6 back to Denver.

213m. DENVER. Your family has traveled to the rooftop of the Rock-

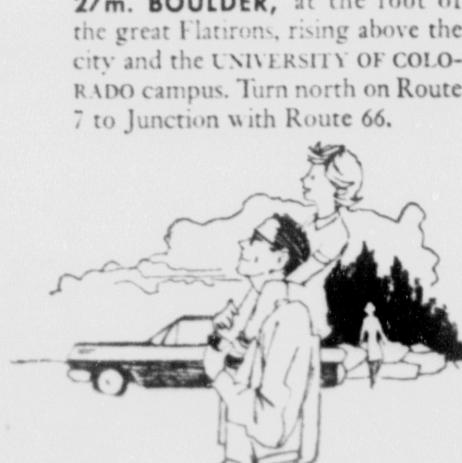

ies, across the Continental Divide and back, a vacation trip many have traveled thousands of miles to experience

—but which you have enjoyed in your one-day or week-end vacation-in-miniature.

This series of tour suggestions is published on behalf of your local service station dealer by the American Petroleum Institute—to remind you that you see America best by car.

See America Best...By Car

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It must be consistent with the truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

COLORADO SPRINGS GAZETTE TELEGRAPH
TUESDAY, MAY 21, 1963

Why Distrust the Market

It is a source of never-ending so many distrust the voluntary association to us that so many choices men make, and in the we know are so fearful of the same breath trust the involuntary market place and what it can do. Compulsive actions taken by government.

Ever since human life began, it is as the when men on this planet, men have learned are harmless, working diligently to work together. But there are and voluntarily, we are fearful of two ways this work can be accomplished.

On the one hand, men can work the laws by means of which together cooperatively, volunteer-death can be dealt out by the their services and receiving state, then we trust the state and in exchange for those services the love it. What a perversion is this, sum for which they have bargain. We fear man unarmed, we ed. This is the market place trust him armed.

We say that when men are forced into a kind of reluctant co-men because men have weak operation in which by coercion, natures and would, we fear, take threats and violence, men can be criminal action.

MADE to perform certain chores. Then, when men—the same and in return for their labor they weak-natured, potential criminals are granted the dubious joy of—are armed and empowered by subsistence and continuing the state to do as they please, survival. This latter is the government then we trust them and, indeed, method.

But the records human kind in the voluntary choices men make have left behind give us over in the market, seeking to subdue evidence regarding the true state decisions for private correct choice to be made here, decisions.

When men are free to enter into Can anything be more perverted own contracts, when they can enjoy the full fruits of their labors . . . when these things happen, free enough to make their own choices, they have produced the gists and biologists against Miss Carson is that she has helped to popularize a new stereotype of the poverty they have known for ages and take great strides forward.

What happens when men are coveries, the literature, the art even to consider the danger of the insecticides he recommends for property, fore-

seen, deprives every property owner of the right to own property.

The argument of the professional entomologist is that the prevalence of an insect pest invariably poses a choice between two of colored people and white evil courses. Admittedly the colored people or any other combination to eradicate the gypsy moth you can think of. I've known

that it does some damage to the food Swedish people who wouldn't sell

it supply of fish as DDT falls into their home to Norwegians and streams. But if the gypsy moth vice versa and Irish Catholics who

is permitted to breed at will, an wouldn't do business with Irish

Protestants, and I knew a magazine editor whose wife wouldn't

let him buy photographs of blonde

for his magazine.

Using a striking figure of speech, Miss Carson says it's a "silent spring" when insecticides kill the song birds. But, so the entomologists report, it's also a

"silent spring" when the birds can prey on the moth, and the

no leafy woods in which to peach trees were rescued.

The "lady beetle" proved to be

in a color or creed angle of this kind of a mess; regardless of laws, government cannot make a colored person associate with a white

even if he lives next door or shares the same school room or seat on a bus. My concern is

with the right of people to own property and the fact that this

no longer exists.

As U.S. Sen. Barry Goldwater

said when he was in Denver last

week:

"REA has electrified 98 percent of the farms in America and fulfilled its original function. Now it should either be dissolved or revised so that it pays its own way."

Now the REA has become involved in another situation in which its Government rate of interest subsidy has worked to the disadvantage of another private power company.

This is a prime example of Government waste — and favoritism

between the President and Tito.

The REA is serving by a private utility. But on apparent difference of a small fraction of a cent that he seek to become a self-reliant, self-responsible individual, who will be free because of this, even if the collectivists are all

acquaintances here who don't believe that they say. "There must be some decency left in government, to say the very least.

Government in our country will lend the co-op gets the radar busi-

ness. The co-op will pay no income or private business, it is an unne-

cessary drain on Government re-

venue.

The Government itself will build lines and selling current

have to borrow this money, paying to city homes and factories. This

is just not like that." They just will \$2 million for this purpose, at

read in the paper until it happens to them and then it will be too

late.

The race, color and creed and at least twice as great interest, not only is unfair competition with

country of national origin stuff is just one facet of a situation which

is growing worse every day and the

the saddest thing of all is that fit.

the very people who foolishly believe they are being helped are also deprived of their right to ac-

tually own their own piece of prop-

erty, their own place in the sun,

and they refuse to recognize the

facts.

I feel that we are fortunate in that we did decide to face the

facts and to decide exactly what

we will do each step of the way

until we will either have the right to own a piece of property or we

will never again become a share

cropper with government at our

own expense. It's not a pleasant

thing to face but we believe it's

better to face a fact than to pre-

tend a problem doesn't exist.

Good luck and good health to

you, in freedom.

And in many instances this has

been the case.

So, to understand wages, it is

not sufficient to think only in terms

of numbers of dollars received.

It is also important to think in

terms of what those dollars will

buy.

Bids for a Smile

He who kisses and runs away

These Days

To Spray or Not to Spray

By JOHN CHAMBERLAIN

The big question in suburbia this spring is nothing so portentous as to what to do about Castro or the tax cut. It is whether to spray or not to spray.

All sorts of associations have sprung up in the wake of Rachel Carson's well-publicized attack on the sellers and users of high-powered insecticides.

Hardly a mail is delivered that doesn't carry some warning that spraying to control the gypsy moth for example, is incidentally murderous to the aquatic insects which keep the fish in our ponds and streams alive. The story of how spraying to control the fire ant in the southern states also decimated birds and raccoons is told and retold. Likewise the story of the dusting of Wayne County in Michigan, which, so the material in the mail repeats, killed Japanese beetles and song birds with beautiful impartiality.

The "Carson woman," which is how some of the more angry entomologists refer to the best-selling author and lecturer who instigated this vast concern over what insecticides are doing to birds, fish and bees, is having her day of triumph. And the entomologists, even when they hate her, don't try to knock down her criticism of indiscriminate spraying, which they admit can kill pheasants and beneficial earthworms along with noxious insects.

The real case of the entomologists and the gists and biologists against Miss Carson is that she has helped to popularize a new stereotype of the

poverty they have known for ages

and take great strides forward.

provided the inventions, the dis-

cerns, the art even to consider the danger of the

insecticides he recommends for

property, fore-

seen, deprives every property owner of the right to own prop-

erty.

This is a prime example of unthink-

ing. An excellent example of a

sale to, he just didn't own the

property in the first place. The

second point, correlative to the

first point, is that the new prop-

erty owner doesn't own the prop-

erty, either, whether he realizes

this fact or not, and he will even-

tually be plagued with the same

laws he thought were just fine and

dandy and make no mistake about that. If "A" can be forced to sell to "B," "B" finds himself in ex-

actly the same predicament. It's

a nasty business and more and

more people are beginning to real-

ize that between taxes and ordi-

nances and laws and taxes, their

ownership of property has turned

into a share cropping proposition

with government sharing and dic-

tating.

I'm not interested in the race or

color or creed angle of this kind of

a mess; regardless of laws, government cannot make a colored

person associate with a white

even if he lives next door or shares the same school room or

seat on a bus. My concern is

with the right of people to own

property and the fact that this

no longer exists.

As U.S. Sen. Barry Goldwater

**Hints from
Heloise**

By HELOISE CRUSE

Hi there!

I want to take a few minutes of your time today to talk about maids, housekeepers and part-time hired help.

I only have help eight hours per week.

I have found—personally—that it is far better to have two women come in and help you clean your house than to depend upon one person.

Here's why: We all get sick sometimes. If they miss one day heaven forbid! we are two weeks behind time.

Now, there's the point:

Are you aware that you and your neighbor—can share a maid?

Yes, you can.

Instead of having a maid for eight hours one day a week we have found that to hire two different maids is better than one!

Reason again?

Gals, one maid can iron like a Dickens! The other one is a whiz at dusting. If you are fanatic on either chore at least it gets done and so will some top cleaning.

One of these maids—and you can figure out this after a few months—will "love" deep cleaning.

This is the one you hire when

you want something extra done!

So girls, instead of trying to

hire and find a jack-of-all-trades

for the members of the Patty helper for eight hours, it is my

suggestion at the next coffee

VITAMIN A, GARLIC, AND NURSING

Which vegetables and fruits provide vitamin A at the lowest cost? Produce prices vary in different parts of the country and the season. But, in general, the best buys—according to the Journal of the American Dietetic Association—are carrots, collards, kale, spinach, sweet potatoes, and winter squash. Next on the list are broccoli, cantaloup, tomatoes, and tomato juice. Other fruits and vegetables are considered expensive sources only because they contain so little vitamin A.

We learned also from this publication that breast feeding in Nottingham, England, is on the decline. While 83 per cent of mothers are breast feeding at four days after delivery, only 60 per cent are doing so two weeks later; and only 50 per cent by the end of a month. The survey showed also that only one in 10 mothers continues to nurse for as long as six months.

The main reason for stopping was a failure of the supply or the unsuitable quality of the milk.

This may not have been a valid excuse, however, because 55 per cent of those who stop within a month admit they would have switched to bottle feeding in any case. Many physicians advocate supplementary feedings when the breast supply begins to wane, hoping the mother will continue to nurse as long as possible. But most women prefer the artificial method when this state is reached.

DIVONNE, France (UPI)—Alan Lewis is trying to do what no American has ever done before—run a three-star restaurant in France.

There are only 12 restaurants in this exalted category in all France, according to the authoritative Guide Michelin. Naturally they are all operated by Frenchmen and all have French chefs.

But Lewis, whose group, Restaurant Associates, runs a notable series of restaurants in New York, New Jersey and Connecticut, thinks he is on the verge of breaking into this exclusive fraternity.

It has been an uphill fight for the past two years, ever since Restaurant Associates bought 137 acres of this resort town near Geneva, including a gambling casino, two hotels, thermal baths, theatre, night club, tennis court and three swimming pools.

Divonne had been coasting along on a reputation built at the turn of the century when Russian royalty and American and British millionaires came primarily for the roulette and chemin-de-fer.

When Lewis and his colleagues took over in June 1962 they instituted a big-game entertainment policy and set out to make Divonne an all-year rather than a seasonal resort.

The big-name policy paid off and Divonne, according to Lewis, is now the most profitable of France's 149 casinos—its nearest rivals are Nice and Enghien. He considers this somewhat of a triumph for American methods which have been introduced without affecting the continental charm of the resort.

"We want a European and an American clientele," Lewis explained.

No Frenchman will ever believe an American can run a three-star restaurant in France, thus there is considerable interest in how Lewis plans to set about it.

"We learned a lot from our restaurants in the U.S.," he said, "especially 'The Four Seasons' and 'The Forum of the 12 Caesars' in New York.

"Americans tend to shy away from the traditional while Europeans prefer the classic regional French cuisine. We are still trying to hit exactly the right note combining the two and when we do we will be waiting confidently for the Michelin inspectors to make their verdict."

Prowler Gets Cash, Wrist Watch

A prowler escaped with \$11 in cash and a wrist watch case valued at \$3 from the room of John W. Hale at the Clinton Hotel, \$133½ E. Colorado Ave., early this morning.

Police reports said Hale was awakened about 5 a.m. by the sound of someone raking the change from a table beside his bed. He said the man was leaving his room when he awoke.

Hale pursued the man but lost sight of him when he went outside. The thief had attempted to enter another room shortly before going into Hale's room, police reports said, but excused himself politely when he opened the door and saw that the occupants were awake.

Pulitzer Prize Winner Gets Into Politics

SALEM, Ore. (UPI) — A man who shared a Pulitzer prize for supply his three Oregon radio stations with news of the Legislature, is helping make news in the Oregon State Senate.

Glen M. Stadler, of Eugene, Ore., who served in the Oregon House of Representatives 1957-58, is beginning a four-year term as a State Senator.

In addition to his duties as Sen.

SALEM, Ore. (UPI) — A man who shared a Pulitzer prize for supply his three Oregon radio stations with news of the Legislature, is helping make news in the Oregon State Senate.

He is owner and president of radio station KEED AM & FM, Springfield - Eugene; and executive vice president of KGAY, Salem, and KGAL, Lebanon.

A native of Woodburn, Ind., 31-year-old Stadler joined United Press in Lansing, Mich., to cover the legislature. He later was transferred to New York, and then to Europe. He was United Press bureau manager in Paris when the Germans took over in 1940.

A year later he was transferred to Berlin, and covered the Fin-

land, and KGAL, Lebanon.

While interned, Stadler and four other United Press newsmen wrote "This is The Enemy," which they smuggled out of Germany and released in a prisoner exchange.

Stadler shared a Pulitzer award for foreign reporting in 1941.

After release from Germany, he returned to the United States, joined the Columbia Broadcasting System and went to Madrid and, in 1944, to London.

He married a Minneapolis girl, Helene Nielsen, in 1947, and moved to Oregon in 1949 to enter the University of Oregon where he received a masters degree in journalism in 1950. He then taught radio journalism at Oregon for two terms.

Unlocked Vehicle Stolen While Driver in Church

Dick Bogue of 2521 Frontier Dr., reported to the sheriff's office Sunday that someone had stolen his car while his wife was in church.

Deputy Sheriff Jack Ames said Mrs. Bogue parked the vehicle in the Holy Family Church lot, security, leaving it unlocked and the keys in the car. It is a 1959 Nash Rambler four-door sedan, color gray, license JZ9330 and ID 5915-1.

The VFW statement was issued following reports that U.S. officials were considering dropping opposition to giving the Hungarian regime a seat in the United Nations.

WASHINGTON (UPI) — The Supreme Court upheld Monday a Federal Power Commission plan to use a new area price method for determining allowable producer prices for natural gas.

Under the plan, FPC would set a guide price for all gas produced in a particular field. Adjustments would be made if evidence showed the price was unfair to consumers or to producers.

Justice Harlan delivered the 5-4 decision. Justice Clark dissented with an opinion in which Chief Justice Warren and Justices Black and Brennan joined.

Under the old method, FPC studied each application to see if the price proposed would give the individual producer a fair rate of return on his investment. This unit-by-unit method resulted in a big backlog of undecided rate cases.

Commission adoption of the new area price method was announced in a case affecting Phillips Petroleum Co., of Bartlesville, Okla., major seller of natural gas.

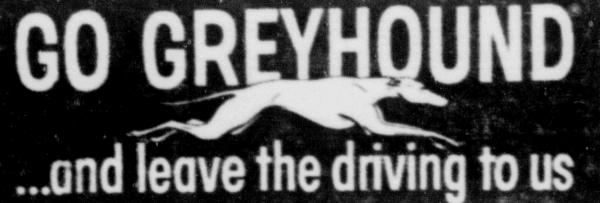

The new method was approved by the U.S. Court of Appeals here in an opinion stating there was nothing in the Natural Gas Act to prohibit a trial of the plan. The Court of Appeals decision was appealed to the high tribunal by Wisconsin, California and New York public utilities commissions.

SUNNY BROOK

now offers the

SMOOTHEST

MILDEST WHISKEY

EVER MADE

It must be tasted to be believed! Today Sunny Brook is made in a new way which completely eliminates roughness and harshness. Sunny Brook now offers finer flavor plus a miracle of mildness and unmatched smoothness.

Whiskey-making, one of the most traditional of skills, has been marked by very few startling break-throughs. But...now...Sunny Brook has broken with tradition. It has made changes in production methods which not only produce finer flavor, but completely eliminate that certain harshness and roughness. It is a great advance in whiskey-making.

You will find in Sunny Brook a superb taste plus a new softness. It must be tasted to be believed, and is milder and smoother than any other whiskey you have ever known. Any way you choose to drink Sunny Brook, you will not detect a trace of harshness. Enjoy Sunny Brook's fine

flavor in mixes, in cocktails or straight. Make this your day of discovery. Tonight

enjoy this triumph in whiskey smoothness and taste—*mild, mild Sunny Brook.*

NEW WATER RESTRICTIONS

NOTICE TO ALL WATER CUSTOMERS OF THE COLORADO SPRINGS DEPARTMENT OF PUBLIC UTILITIES

Effective Monday, May 20, 1963

The City Council of the City of Colorado Springs, acting as the Utilities Board, herewith announces the following REVISED WATERING RESTRICTIONS which will be placed in effect on MONDAY, MAY 20, 1963, and which will be in effect thereafter until further NOTICE:

1. HOUSES AND COMMERCIAL ESTABLISHMENTS BEARING ODD NUMBER ADDRESSES WILL WATER LAWNS, SHRUBS, TREES, ETC., ON ODD NUMBERED DAYS OF THE MONTH ONLY BETWEEN THE HOURS OF 6 A.M. AND 8 A.M. AND BETWEEN THE HOURS OF 6 P.M. AND 8 P.M. NO IRRIGATION WILL BE PERMITTED ON THE 31st DAY OF ANY MONTH.

2. HOUSES AND COMMERCIAL ESTABLISHMENTS BEARING EVEN NUMBER ADDRESSES WILL WATER LAWNS, SHRUBS, TREES, ETC., ON EVEN NUMBERED DAYS OF THE MONTH ONLY BETWEEN THE HOURS OF 6 A.M. AND 8 A.M. AND BETWEEN THE HOURS OF 6 P.M. AND 8 P.M.

3. CUSTOMERS HAVING NEW LAWNS, AND ONLY THOSE NEW LAWNS PLANTED DURING 1963, MAY WATER DAILY IN CONFORMITY WITH THE FOLLOWING SCHEDULE AND ONLY AFTER OBTAINING NEW LAWN WATERING PERMITS FROM THE DEPARTMENT OF PUBLIC UTILITIES AT 18 South Nevada Ave: WATERING OF SAID NEW LAWNS WILL NOT EXCEED 30 MINUTES FROM 7 A.M. to 7:30 A.M.: FROM NOON to 12:30 P.M. AND FROM 6 P.M. TO 6:30 P.M. DAILY.

4. CUSTOMERS RESIDING IN GREEN MOUNTAIN FALLS, CHIPITA PARK AND OTHER AREAS WHERE NO STREET AND HOUSE NUMBERS ARE INSTALLED ARE DIRECTED TO FOLLOW AN HONOR SYSTEM OF WATERING ONLY EVERY OTHER DAY AND WITHIN THE TIME AND DATE LIMITATIONS OUTLINED HEREIN.

5. USE OF DOMESTIC WATER FOR CLEANING SIDEWALKS, SERVICE STATIONS OR OTHER AREAS IS STRICTLY PROHIBITED.

6. VIOLATIONS OF THE RESTRICTIONS OUTLINED HEREIN WILL RESULT IN IMMEDIATE RECOURSE TO LEGAL ACTION AGAINST THE OFFENDERS. WHERE COLORADO SPRINGS LEGAL JURISDICTION DOES NOT PREVAIL THE ONLY CORRECTIVE MEASURE IN SUCH INSTANCES WILL BE TERMINATION OF WATER SERVICE TO THE CUSTOMERS CONCERNED.

7. THE ABOVE RESTRICTIONS APPLY TO ALL AREAS SERVED BY THE CITY OF COLORADO SPRINGS, INCLUDING SKYWAY, STRATTON MEADOWS, GREEN MOUNTAIN FALLS, CHIPITA PARK, NOR HILL, Cragmoor, MILITARY ESTABLISHMENTS AND ALL FRINGE AREAS SURROUNDING COLORADO SPRINGS.

The restrictions herein outlined are imposed as a result of continued drought conditions prevalent in this region which are causing rapid depletion of water in City reservoirs. Also, said restrictions are imposed because of the difficulty in transmission of sufficient water to customers during periods of maximum usage.

The City of Colorado Springs again requests the cooperation of all its water customers during the present emergency. Retention of all water possible in the City's reservoirs is mandatory as protection against possible continuance of the existing drought condition.

BY ORDER OF THE CITY MANAGER AS DIRECTED BY THE CITY COUNCIL OF THE CITY OF COLORADO SPRINGS, COLORADO

MOVE OVER HANNIBAL
ROME (AP) — Hannibal was not the first to invade Italy with elephants.

King Pyrrhus of Epirus, now Albania, brought 20 war elephants to the battle of Heraclea in 280 B.C. He won overwhelming victories against the Romans there and the following year at Asculum. But his losses were so heavy he said "One more such victory and I am lost."

Billion-Dollar Sales Club Gets Big Boost

By PETER T. EARLE

NEW YORK (UPI) — While business confidence took its grand false plunge last year, the Billion-Dollar Sales Club achieved its sharpest corporate membership increase since 1956.

The mythical club of billionaire industrial concerns took in seven new members without scratching a single 1961 participant, lifting membership to a new peak of 60 firms with record aggregate sales of almost \$147.4 billion vs. \$128.8 billion a year earlier.

Of the seven new members, Republic Steel and American Motors were reinstated after being temporarily stricken from the rolls in 1961. The five other entrants were all making their debuts.

Burlington Industries, the nation's largest textile company, qualified for membership at least partially through its acquisition of

Edwin Mills during the year. In for many years. Other large participation came from the store graph. Monsanto Chemical, East-chains with eight members and man Kodak and U.S. Rubber made from the aerospace industry with the grade almost entirely through six aircraft and three electronic internally generated sales increases.

The auto, food processing and all the new members came chemical industries boasted four from the ranks of manufacturers members apiece. No other industry whose membership now numbers try has more than three members. The non-manufacturing billion-enrolled.

are membership remained unchanged at nine.

There were no changes in position among the top 10 corporations and all showed sales increases except the A&P which suffered a slight decline.

General Motors tightened its the week-end and dribbled white paint on first place with a huge paint all over the basement and 20 per cent or \$3.3 billion sales in the church itself, the sheriff's jump. Rounding out the big 10 in office reported.

order were Standard Oil (N.J.), Deputy Sheriff Vincent Den-American Telephone, Ford, A&P, boske said entry was gained by General Electric, Sears Roebuck, breaking a glass in the basement Socorro Mobil, U.S. Steel and Texaco. The paint was then poured

over the floor. A gallon of it was over the floor. A look at the complete list carried upstairs and poured on showed 54 members with sales in the carpet, floor and chairs.

creases over 1961 and only six. The building is not in use at

with declines — A&P, Safeway, General Dynamics, Boeing, Martin-Marietta and Sinclair Oil.

There were some radical position shifts within the list. North American Aviation and Lockheed rose six slots apiece while Shell

Oil, IBM and Firestone gained four positions each. Because it sold a subsidiary, American Tobacco tumbled 10 places down the list despite a minor sales increase at Arvada. They are led by Oren uses the electrical conductance on an adjusted basis. General Dynamics dipped six positions and Square Steppers for three years water, the more it resists' the Boeing and Union Carbide four

apiece. Oil, with 10 members, remained "The Little Black Book." Gary Johnson and Dianne Zook were ber 40,000. Americans 7,000 and Spaniards a few thousand.

YMCA Swim Lessons Set to Start June 12

The YMCA will offer another session of beginners swim' lessons for pre-school boys and girls beginning June 12th.

These sessions are offered on a three-month basis for younger children and are under the direction of Peg Mackey, the Aquatic Director for the Y.

In addition to the classes for beginners a series of classes will also be offered to intermediate swimmers beginning June 10th.

Classes are almost filled to capacity at this time YMCA officials said, but anyone wanting more information about the Aquatot program should contact the YMCA at 633-4643.

Aerospace Water Purity Is Guarded

PHILADELPHIA (UPI) — Water that goes into complex mechanisms linked to aerospace efforts must be as pure as the distilled aqua used in car batteries.

A detective-style device, developed by the Leeds & Northrup Company, finds impurities that are only a tiny fraction of one part in one million. The instrument, which de-

termines the exact purity of wa- of youths from ages eight to 18, ter under test, works on the principle of the resistance of water to electricity and mea-

MY ANSWER

by **Billy Graham**

© 1963 by Chicago Tribune
N.Y. News Syndicate, Inc.

QUESTION: I become very disturbed when some people tell me of the wonderful transformation that came to them when they were reborn. I was raised to believe God and to trust the teaching of the Bible. I cannot remember when I did not believe that Jesus died on the cross for my sins. I enjoy helping my children with their Sunday School lessons and enjoying doing my own. In wonderful ways our prayers are answered, yet I have never experienced anything such as I hear these people tell about. Sometimes it frightens me. Is there something wrong with me? —Mrs. D. D. W.

ANSWER: You will be surprised to know how many people are dedicated, active Christians, and yet they cannot refer to a specific time when a religious experience seemed to take place—one that they call the beginning of their Christian life when they were born again. My own wife is one of these—but her life clearly testifies that she knows Christ.

Studies into the nature of Christian conversion indicate that people have all kinds of experiences from the most violent and traumatic experiences down to those that are so mild they cannot recall them. You see, the experience is not the important part of becoming a Christian. What is important is to know whether or not you are alive today. I do not mean that you are alive physically, but it is important to know that you are alive spiritually. Eternal life is a gift that God gives through Jesus Christ. The Bible says, "As many as received Him unto them gave He right to become the children of God, even to those that believed on His name" (John 1:11). This is eternal life. It is the kind of life that belongs to every one who is entitled to be called a child of God.

Your vital interest in the spiritual life of your children, and your enjoyment in the study of the Scriptures for your Sunday School work indicates that God has opened your heart. One of the surest tests that we are Christian is that we have a love for the Word of God and a desire to obey it, not whether we have had a certain feeling or otherwise.

Another definite indication is that we love others—Jesus said: "We know we have passed from death to life because we love the brethren."

Navy Man Still Denies He Was Spy for Russia

NEW YORK (UPI)—Navy Yeoman Neilson C. Drummond, on trial for his life on charges of spying for Russia, testified Monday that he planned to kill his Soviet U.N. delegation contact the night he was arrested.

Drummond, testifying in his own defense in federal court, said he had a loaded .32 caliber gun under the front seat of his car last Sept. 28 when he was arrested in Larchmont, N. Y., in the company of Evgeni M. Prokhorov. He said he intended to kill Prokhorov, whom he called "Mike No. 3" because Prokhorov was his third Russian contact.

"That was my sole and primary reason for being there," the 34-year-old Negro defendant testified. "I wanted to get rid of, once and for all, to being hounded by the Russians."

Drummond denied ever passing documents relating to the national defense to the Russians in the six years since he had his first contact with them in London. He said he had given them only "papers which I had marked restricted but were worthless—papers I knew had been declassified."

New Reports Suggest Bo May Be on Block

CLEVELAND, Ohio (AP)—Rumors persisted in baseball circles today that pitcher Bo Belinsky will not be with the Los Angeles Angels much longer.

Latest report is that the sometime-wayward Angel is about to sky.

be traded. An earlier report had Belinsky, 26, who has a 1-7 record this season, headed for the midwest.

night in the bullpen as the Tribe

Bud Furillo, sports writer for the Los Angeles Herald-Examiner, may mean the removal of the lefty already has been approved. Belinsky said Belinsky was great in spring training but hasn't shown much stuff lately and has

Gabe Paul, president of the been wild. He said he wants the Cleveland Indians, was asked playboy hurler to stay in the bullpen a while and see whether Belinsky, who pitched a no-hitter, can hit in his rookie season last straightened him out.

"I hope to use him as a long

strengthening the ball club," Gabe. The Angels manager said he replied, adding quite properly: "I thought Belinsky was behaving pretty well this season and it could be construed as tampering."

Paul did say that Manager Birdie Tebbets had been talking to blonde film beauty Marnie Van to Los Angeles Manager Bill Rigney. He's been a familiar figure, and he observed that Belinsky is in Hollywood night spots "has a good arm."

Rigney also scoffed at reports

There will be more conversations before Los Angeles departs minors. He said the subject has Wednesday night, but "whether not been discussed. 'He's got something will come of it. I don't enough stuff to pitch in the majors so why should we send him down,'" he added.

Los Angeles baseball writers re-

down," he added.

Liston Prepares for Return Match With Floyd Patterson

DENVER (AP)—Sonny Liston tered the ring for a sparring session with a thud that madeing, white T-shirt with green lettering, red shorts and purple trunks.

"A punch like that would kill an ordinary man," commented an airman watching the heavyweight champion work out at the Lowry Air Force Base gym on Monday.

Chuck Garrity, Denver Post sports editor, asked Liston if he ever hit an opponent as hard as he socked the bag. "Naw," grunted the champion.

Not even Floyd Patterson, whom he knocked loose of the crown last September.

"I only hit him half that hard," Liston said.

Liston's rematch with Patterson is scheduled for July 22 at Las Vegas, Nev.

"I don't think Patterson will fight any different," the champion said. "He'll come out just like he did before. I will, too—even a little."

This brought a laugh. It took only two minutes, six seconds for the beefy Liston to deck Patterson.

They are the Air Force Academy, University of Denver, University of Colorado, Colorado Mines, Idaho, State, Montana State, Utah. He was a riot of color as he entered SCU.

THE DEPENDABLES BUILT BY DODGE!

Either of these Dodge convertibles is a smart buy. The Polara 500 on top has a 383 cu.-in. standard V8 and bucket seats with console. The Polara, below, comes with a 318 cu.-in. V8, bench-seats and a snap-down center armrest. But maybe you'd prefer a hardtop, wagon or sedan. We got 'em, 24 Dodge models in all. Pick any one and get comfort, luxury, plus a 5-year/50,000-mile warranty* going for you.

*Your Dodge Dealer's Warranty against defects in material and workmanship on 1963 cars has been expanded to include parts replacement or repair without charge for required parts or labor for five years or 50,000 miles, whichever comes first, on engine block, head and internal parts, transmission, clutch, differential, main bearing, clutch, torque converter, drive shaft, universal joints (excluding dust covers), rear axle main bearing, and rear wheel bearings—provided the vehicle has been serviced at reasonable intervals according to the Dodge Certified Car Care schedules.

Richards' Graduates Turn in Strong Jobs

By MIKE RATHET
Associated Press Sports Writer

Milt Pappas and Dick Drott pitch in two different worlds, but both are students of the same school.

Pappas, 24-year-old Baltimore right-hander who earned his Paul Richards diploma a few years back, and Drott, a 26-year-old Houston right-hander who graduated from the Paul Richards school only recently, came up with outstanding pitching performances

Monday night.

Pappas limited Detroit to five hits, pitching Baltimore into a tie for the American League lead by blanking the Tigers 6-0. Drott checked Pittsburgh on the same night in the National League game scheduled.

In the other AL game, Chicago's White Sox moved up into the top spot with the Orioles by edging Washington 5-4. Minnesota dropped Boston from first to fourth by downing the Red Sox 6-5 and Cleveland whipped the Los Angeles Angels 7-5. New York and Kansas City were idle.

Pappas, a Richards protege when the master manipulator of pitchers was manager at Baltimore, recorded his second shutout of the season and his fourth complete game in bringing his record to 4-0. He struck out seven and lowered his earned run average to an amazing 1.17.

The Orioles backed him with four homers that provided all the runs for their sixth victory in the last seven games. Jack Brandt and Boog Powell each hit two-run homers while Jim Gentile and Jerry Adair connected for solo shots that tagged Tigers' starter Phil Regan with his fifth defeat in seven decisions.

Drott, a Richards reclamation project now that he's the Colts' general manager, surprised teachers even more, pitching his first complete game in 23 starts over four years—since June 14, 1969. And it followed by only three days the no-hitter pitched by Houston's Don Nottebart, still another Richards' pupil.

The Colts managed only four hits off Pittsburgh starter Don Cardwell in the seven innings he worked, but put together two for the only run they needed when Bob Aspromonte singled and Johnny Temple tripled in the fifth inning.

Davis is currently in seventh place in the State Tourney in the all-events handicap division and shot 1860 in the scratch division. He is in 14th place in the Dream Tournament.

The father of three children concluded the regular bowling season with a whopping 207 average in the '67 League for 21 games.

He carried a 195 average in the competitive '900' League and 188 average in the Tuesday Night Trio League.

BOWLING TIP — Harry Eichelberger, Colorado Springs' foremost kegler gives this bowling tip:

Align — "When preparing to deliver the ball, look down to insure that your guide foot (left foot for right-handed bowlers — right foot for left-handed bowlers) is properly placed on the approach.

This is very important. If the guide foot is not properly aligned, a correction must be made in the second or succeeding step which will cause an erratic or weaving approach.

Result: "A weaving approach to the foul line will in all instances cause an erratic delivery and loss of accuracy," Eichelberger said.

STATE TOURNEY — The Joe Newcomer Finance bowling team remained in the leader's seat in the team scratch division of the Colorado State Handicap Bowling Tournament at Monaco Lanes in Denver. The Colorado Springs team rolled 3009 more than a month ago and that score has stood up to 809 teams competing in the tournament.

Ventian Village Enco, also of Colorado Springs, moved into third place in the team handicap competition with 3186. Jim Pee of this city maintained his lead in the all-events scratch via 1963 and is in contention for a top spot in the all-events handicap division with 2025.

The tourney is scheduled to conclude this weekend.

BPA TOURNEY—Some 60 bowling teams from throughout the State will compete in the Bowling Proprietors Association Team Handicap Tournament, June 2, at Bowler-Ero in Denver.

A total of 1567 teams entered the meet on the house elimination level, advancing on 1-for-5 basis into district play and again 1-for-5 to state competition.

Two squads from Colorado Springs will compete in the statewide tourney. They are the Headquarters Company, 2nd Battalion, 10th Infantry Tempins and the Classic Misfits.

All 60 of these state final teams are assured of prize money in the tourney. The pool is estimated at \$12,000. And the two top teams in the state finals will win expense-paid trips to the National Team Handicap Tournament, including their \$1,500 entry fees, Aug. 10-11, at Independence, Mo.

GREAT WESTERN FINALS — The annual Great Western Tourney is slated for Ute Lanes this weekend with the winners getting a free trip to Las Vegas to compete in the Grand Finals. The prize money there for the top squad will be \$2,000.

The local roll-off begins this Saturday at 1 p.m. and at 3. The

COLORADO SPRINGS GAZETTE TELEGRAPH

TUESDAY, MAY 21, 1963

BOWLING Bob Davis: Bowling Whiz

By CHARLIE DREUX
Gazette Telegraph Sports Writer

The better-than-average kegler can expect not more than a half dozen "700" scratch series during his career in bowling—those below the 180 average barrier can expect less or possibly never to hit the magic series. But for Bob Davis, rolling "700" series comes naturally.

This 24-year-old native of Hoxie, Kan., whacks the tempins like he's been participating in the indoor sport more than three years and rates as the most productive young bowler in the Colorado Springs area this year.

Davis caused quite a stir in the local scene with a bowling phenomenon: he rolled four "700" series in sanctioned competition over a 27-day span. Davis shot his first "700" series April 18, in the Great Western Tournament with games of 235, 237, and 270

for a whopping 742 series. Five days later he tallied his second

magic series via a 738 with games of 234, 238, and 266. He recorded his third series May 1, in the Ute Lanes '67' League with a 714 series composed of 245, 256, and 213. His final high series was on May 15 when Davis put together games of 234, 258, and 218 for a 710 series.

In just three years Davis has competed in nine major tournaments. His latest achievements include 20th place in the World Open Classic at LaHabre, Calif., where three weeks ago he scored 3998 for 20 games. He placed 16th in the Dallas National Open Tournament with a 1287 score for six games; placed seventh in the Tower Lanes Tourney at Ulysses, Kan., last year; won the Great Western Tourney at Ute Lanes; won the Ute Lanes Springs Singles 880 for four games; was ninth in the Lamar Endurance Tourney, Lamar, Colo.; and won the Hawaiian Tourney house elimination

last year at Ute Lanes.

The Cadets have more duties, spread in more directions than is imaginable, during that period. Some team members are scheduled for summer leave, others for overseas field trips, still more for tours of Air Force installations in the U.S., and others remain at the Academy to begin preparation for the entrance of the Class of 1967.

The league champions, Peak Bowl No. 1, received a sponsor trophy and individual trophies and patches. Scott Gilmore, Mary Bendish, Barbara Dawson, Rick Shue, and George Krueger were member

of that team.

Other awards: high scratch series, Bob Brown, 654, and Mary Bendish, 604, high handicap series, Dan Brunson, 675 and Sharon Towner, 655; high scratch game, Rick LaRue, 253, and Jane Heschke, 219; high handicap game, Felix McCleary, 250, and Pat Mayer, 252; high team series, Fountain Valley Misfits, 2850; team game, Peak Bowl No. 1, 1047 high league average, Gary Coleman, 182, and Mary Bendish, 160; most improved bowler, Gerald Boyd, 21 pins and Glenda Hester, 20 pins.

Davis is currently in seventh place in the State Tourney in the all-events handicap division and shot 1860 in the scratch division. He is in 14th place in the Dream Tournament.

The father of three children concluded the regular bowling season with a whopping 207 average in the '67 League for 21 games.

He carried a 195 average in the competitive '900' League and 188 average in the Tuesday Night Trio League.

The White Sox scored the decisive runs in the sixth inning on a single by Floyd Robinson, Joe Cunningham's double and sacrifice flies by Dave Nicholson and Charlie Maxwell, but needed Jim Brosnan's 2 1/3 innings of tight relief pitching to subdue the Senators. Brosnan now has allowed only one earned run in 11 1/3 innings since he was acquired from Cincinnati two weeks ago.

Eighteen cars have qualified but high winds both days kept the speeds for the 10-mile springs down at least two or three miles an hour from the expected 132-plus speeds.

Low man on the chart is Mexico's Pedro Rodriguez, a rookie who turned in 146.887. With good weather the slowest cars to make the field last weekend. While mechanics work to get a few miles an hour more out of their cars, drivers were

CONTINENTAL AIRLINES

Aid to Disadvantaged Children Is Proposed

MIAMI BEACH, Fla. (AP) — Mrs. Clifford N. Jenkins told the president of the National Congress of Parents and Teachers called today for a massive attack on the problems of disadvantaged children. Mrs. Jenkins said in a keynote address, "the world is a bleak and chilly place."

"They are the children of migrant workers. They are children who crowd the gray areas of our great cities — children of the slums. They are the children of immigrants from Puerto Rico, the South and the depressed areas of our country."

The plight of these children is only one of the problems facing the 47,000 local PTAs, Mrs. Jenkins said.

"Serious problems of group relations exist in the North, South, East and West," she added.

"School dropouts and unemployed youth are a nationwide problem in both cities and rural areas."

"Relaxed moral standards, shoddy mass media, and materialistic values are a national concern."

MEETING

BALLWIN, Mo. (UPI) — Rudolph Jaegers and Paul Lincoln work different shifts for the same firm, and seldom noticed each other. The two men met atop Pike's Peak. Each didn't know the other was on the trip.

CASH AWARD—Lt. Col. C. E. Ronan, acting Ft. Carson commander, at right, presents Mrs. Beverly Olson of Carson Civilian Personnel with a cash sugges-

tion award for simplifying office procedures and saving manhours. N. M. Socha, civilian personnel director, approves at left. (U. S. Army Photo)

Secret Talk on Disarmament Sought by West

GENEVA (UPI) — The West was joined in rare unanimity today to based on the Soviet proposals for reported today to be planning to pay tribute to the late Omar the disposal of rockets during the sound out immediate Soviet dis- Loutfi, U. N. under secretary for disarmament process.

special political affairs, who died last Friday. No other business Soviet acceptance would mean

Presbyterians Insist on Sharp Lines

By GEORGE W. CORNELL
DESMOINES, Iowa (AP) — Pres- ters, which are described as ten- ligated to the state by virtue of

byterians, spiritual descendants of meaning less ritual."

John Calvin, generally don't go along with the way he mixed re-

ligion with government.

Their view is that each should keep official hands off the other.

This position, contrasting great- ly with the 16th Century reformer's meshing of religious and political authority in Geneva, was highlighted today in a report before the United Presbyterian General Assembly.

In probably the most clear-cut and detailed delineation ever pro-

jected by a church on the Ameri-

can scene, the proposed report

marks off some sharp lines be-

tween church and state.

The report, up for action by repre- sentatives of the 3.4-million- member denomination, deals with many of the hotly debated church-state issues smoldering in the na-

tion. Among other things, the report:

1. Opposes religious observances in the public schools, in- cluding Bible readings and pray-

Englewood Watering Ban Is Announced

ENGLEWOOD (UPI) — Engle- wood City Manager Stanley H. Dial imposed lawn watering re- strictions Monday for the town.

Dial said residents would be al- lowed to water on alternate days, according to their street address- es. Watering will be permitted be- tween the hours of 6 a.m. and 9 p.m.

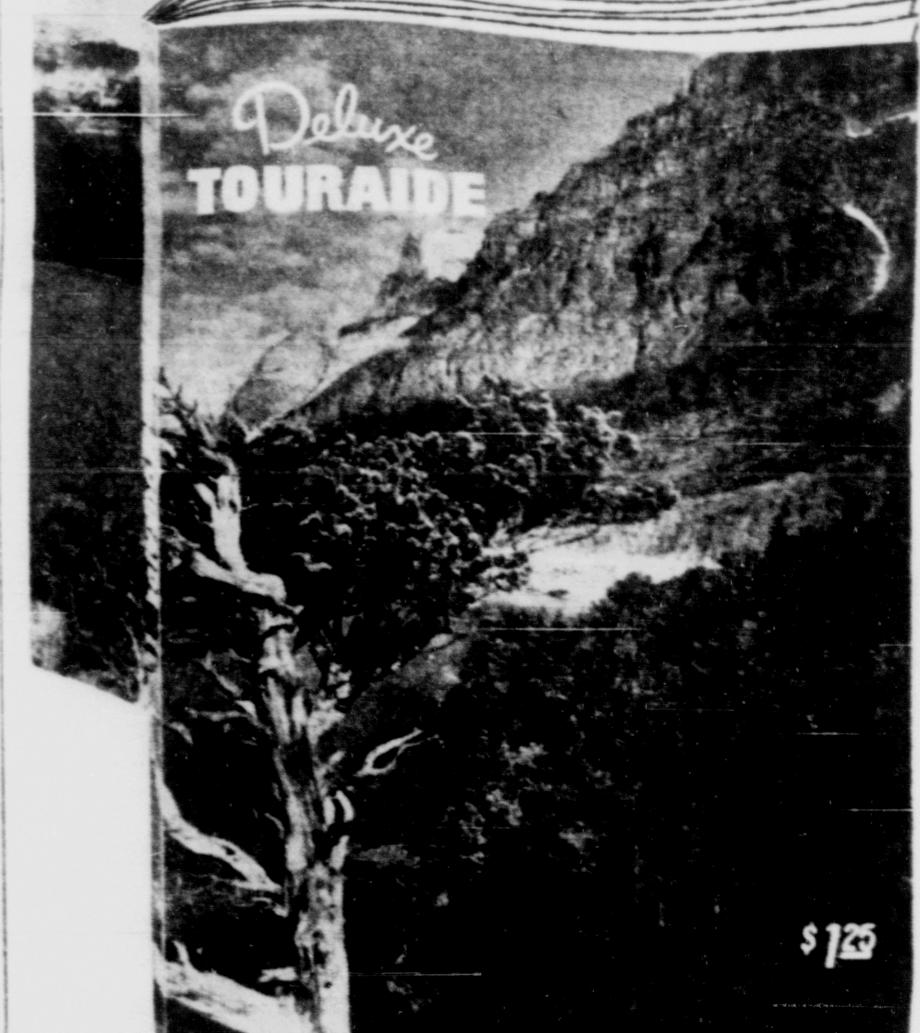

Restrictions were imposed to con- serve the town's dwindling water reserves during the pro- longed period of dry weather.

HATCH'S Where Every Day Is SALE DAY!

A Built-In Range without Built-In Cost!
Slides Into the Space of Your Present Range!

Originally designed to be a limited-production-model for custom kitchens, the demand and sales of this "Fabulous 400" Tappan have been so overwhelming that we are now producing this futuristic model at a price that you could pay for a conventional range! Even though it looks like a built-in, it's a complete unit that you just slide into the space of your present range. You actually get built-beauty WITHOUT built-in cost! And it's an economical investment, too, because this is the one range that is so modern and so satisfying, you won't have to replace it in the years to come! And it's packed with a galaxy of automatic features that are almost unbelievable. Be forewarned: If you see it, you'll want it! And when you see its low price, you'll buy it!

Also Available in 30" Models..... \$269.00 W.T.
